Education

University of Pittsburgh — Pittsburgh, PA, U.S.A.
Doctor of Philosophy in Intelligent Systems (Artificial Intelligence) — *Aug. 2024 - Apr. 2028*
- Research: NLP for legal reasoning, trustworthy LLMs, agentic AI, and system evaluation
- Advisor: Prof. Kevin Ashley
- Courses: Large Language Models (Carnegie Mellon University), Natural Language Processing

Tsinghua University — Beijing, China
Master of Computational Law — *Sep. 2019 - Jun. 2022*
- Research: Computational Law

Australian National University — Canberra, Australia
Study Abroad in College of Engineering and Computer Science — *Jul. 2017 - Dec. 2017*
- GPA: 6.5/7.0

China University of Mining and Technology — Jiangsu, China
Bachelor of Electrical Engineering — *Sep. 2015 - Jun. 2019*
- GPA: 90.91/100, Ranking: 2/278

Technical Experience

Thomson Reuters Labs — Eagan, MN, U.S.A.
Applied Research Intern — *May 2026 - Aug. 2026*
- Conducted applied research on long-term memory for AI agents, supporting deep research over long legal documents and long-form content generation with direct commercial applications in litigation and transactional workflows.
- Built and evaluated agent pipelines across dataset optimization, model adaptation, and automated assessment; partnered with science, product, and engineering teams to deliver tailored solutions for grounded workflows.

Research Projects

Benchmarking LLM Long-Context Understanding and Temporal Logic Pittsburgh, PA, U.S.A.
***Li Zhang**, Jaromir Savelka, Kevin Ashley* *Sep. 2024 – Present*

- Built a legal-corpus benchmark for long-context and temporal reasoning over overruling relationships, with metrics for temporal bias, robustness, hallucination, and grounding in controlling precedent.

Reflective Multi-Agent Frameworks for Ethical Legal Persuasion Pittsburgh, PA, U.S.A.
***Li Zhang**, Kevin Ashley* *Aug. 2024 – Present*

- Developed a reflective multi-agent framework whose critic agents verify legal arguments against factual records, with inspectable guardrails against manipulation and fabricated evidence.

Evaluating and Enhancing Hierarchical Legal Reasoning Pittsburgh, PA, U.S.A.
***Li Zhang**, Matthias Grabmair, Morgan Gray, Kevin Ashley* *Nov. 2024 – Present*

- Evaluated reasoning collapse in multi-stage legal tasks and developed hierarchical inference strategies for robust case distinctions and nuanced deductions in complex case law.

Financial & Legal Experience

The Export-Import Bank of China, Jiangsu Branch Nanjing, China
Legal Counselor *Jun. 2022 - Jul. 2024*

- Led negotiation and execution of cross-border structured financing and trade-finance transactions at a state policy bank, advising on credit risk, counterparty exposure, and regulatory compliance.
- Drafted and reviewed credit facility and security documentation; advised deal teams on transaction structuring, operational risk, and dispute resolution, building first-hand knowledge of financial markets and banking products.

Talks

1. Do LLMs Truly Understand When a Precedent Is Overruled, 2025 Pittsburgh Legal AI Summit, Carnegie Mellon University
2. Mitigating Manipulation and Enhancing Persuasion: A Reflective Multi-Agent Approach for Legal Argument Generation, ResearchTrend.AI
3. Enhancing Legal Argument Generation: From Basic Schemes to Trustworthy Multi-Agent Systems, ISP Forum, University of Pittsburgh

Skills & Qualifications

- **Research:** Statistical learning, LLM evaluation and benchmarking, multi-agent systems, interpretability, and document intelligence
- **Programming:** Python (PyTorch, Scikit-learn, Pandas and NumPy), R, C/C++, MATLAB, SQL, JavaScript
- **Cloud Technologies:** SageMaker, DynamoDB and API Gateway
- **Finance & Law:** PRC Legal Professional Qualification; two years of cross-border financing and credit transaction experience in commercial banking
- **Others:** LaTeX, Markdown, Linux, Shell and Anaconda
